

# Questions Regarding Professional Consulting Engineering Services Request For Qualifications

1. Can an 11"x17" page be used for the organizational chart? **Yes**
  
2. On page 15 of the RFQ, it states: "Training Certifications/Certifications of Compliance/Evidence of Compliance shall be submitted with the response to the RFQ." **Are you only looking for evidence of compliance for the personnel meeting the criteria below or for everyone certified/licensed on our organization chart? Please clarify.**
  - RFQ Criteria: At least one (1) principal of the Respondent must be a professional engineer registered in the State of Louisiana. At least two (2) principals or other responsible members of the Respondent must be professional civil engineers, registered in the State of Louisiana, one (1) with at least five (5) years of experience in bridge design/structural inspection of river/marine crossing structures.

**Submit support for all professional engineers and divers.**
